TOMLYN® ANNOUNCES ADDITION OF TOMLYN SCIENTIFICS BRAND AT GLOBAL PET EXPO

FORT WORTH, Texas — Feb. 20, 2013 — Tomlyn®, creator of pet health and wellness products, today announced the addition of a new company brand, Tomlyn Scientifics. The first products in this new line will be on display at Tomlyn's booth #2209 during the Global Pet Expo annual trade show, Feb. 20-22, 2013, in Orlando, Fla.

Tomlyn Scientifics brings pet owners premium health and wellness solutions with products that have the quality found in vet clinics. The first products under Tomlyn Scientifics are L-lysine Chews and L-lysine Powder, both for cats and kittens, which are formulated for support of a healthy immune system and recommended for conditions responsive to L-lysine. L-Lysine Chews and Powder are not only veterinarian-formulated products, but they also carry the National Animal Supplement Council (NASC) seal. NASC works with the makers of U.S. companion animal supplements to uphold products to the highest quality production and manufacturing standards.

In addition, L-lysine Chews and Powder for cats and kittens help support normal respiratory health, and help maintain normal eye function. L-lysine Powder, in fish and chicken liver flavor, is highly palatable and easily administered orally. L-lysine Chews, which are fish flavored with a touch of Wild Alaskan Salmon Oil, are administered easily like a treat for cats and kittens to enjoy.

“Tomlyn is proud to announce the addition of our new brand, Tomlyn Scientifics,” said Peter Trevino, business unit manager for Tomlyn. “At Tomlyn, we strive to provide pet owners with the highest quality supplements available on the market, and Tomlyn Scientifics products stand up to that reputation.”

Founded more than 35 years ago, Tomlyn has expanded its product line rapidly in the last two years. For more information about the company's variety of scientifically formulated products for pets, visit Tomlyn.com.

About Tomlyn®

Tomlyn is a pet health and wellness company founded in 1976 that carries a complete line of the finest scientifically developed veterinarian-approved pet healthcare products. The company has a wide range of product categories, including: nutrition/supplements, internal health, dermatology, and home/sanitizers. Known as the maker of Nutri-Cal®, a high-calorie nutritional supplement, and Laxatone®, for the elimination and prevention of hairballs, Tomlyn is a division of Vétoquinol USA and owned by Vétoquinol SA, the 10th largest veterinary pharmaceutical company in the world. For more information about products for dogs, cats and other companion animals, visit Tomlyn.com.
